CWP
Specialists in high
quality concrete products

PRE CAST RE ENFORCEMENT WELDER

We are looking to recruit an experienced Welder Fabricator to work with part of a team of other skilled workers, your duties may often be performed with minimal supervision so ideal candidate must be comfortable working independently in a factory setting.

Role profile

- Welder Fabricator, mainly working with reinforcement cages, setting out 10mm and 12mm bars onto a steel jig and spot welding up. All cages to be robust and secularly constructed.

Essential Requirements:

- Good organisational skills
- Good communication and people skills
- Ability to work on own initiative and as part of a team without constant supervision
- Basic understanding of Safety, health, and Environment practices
- Quality and production Control Knowledge/ Experience

Additional Information:

- 40 hours per week Mon to Fri 06:00 – 14:00
- Reporting to Production Supervisor
- Overtime available
- Hourly rate dependent on experience
- Workplace Pension Scheme
- 28 days Holiday

Previous experience working with pre-cast/ concrete products or in a manufacturing environment would be desirable.
